

BUCKINGHAM

TERROR

Haunted House

October 19-31

Wine & Screams Party

October 18

Buckingham Terror, a program of Camp Fire, provides local middle and high school youth an unique opportunity to earn service hours, gain leadership, communication and vocational skills, as well as hands-on business experience. Teens learn about project management, strategies to effectively set goals, and the importance of having a growth mindset.

Each year more than **225** middle and high school students spend over **1,500** hours designing, building, and running the Haunt. With a completely new theme and build each year, Buckingham Terror is visited annually by more than **2,000** guests - approximately **50%** of which are adults.

Funds raised from the Buckingham Terror program are used to support teen service-learning programs throughout the year. Camp Fire teens gain real-life and academic skills as they participate in countless service-learning, leadership, and recreational programs. Each year, Camp Fire teens are:

- Civically engaged - **volunteering** more than **4,100 HOURS** throughout the community
- **Out-performing** their peers in standardized testing for reading and math
- Interacting with **positive, skilled, caring** adult role models on a regular basis
- **MORE** interested in **learning and achieving their goals**
